## Claesson Koivisto Rune

Claesson Koivisto Rune is a Swedish architectural partnership, founded in Stockholm, in 1995, by Mårten Claesson, Eero Koivisto and Ola Rune. It started as an architectural firm, but has since become an internationally acclaimed, multi-disciplinary office with an equal emphasis on both architecture and design.

As the first Swedish office to have exhibited in the international section at the Venice Architecture Biennale, in 2004, they are also responsible for award-winning projects such as the Tind Prefab house collection for Fiskarhedenvillan, Widlund House private villa on Öland, Örsta Gallery building in Kumla, Sfera Building culture house in Kyoto and Nobis Hotel in Stockholm.

They design for such international companies as Arflex, Asplund, Blueair, Boffi, Capdell, Cappellini, Casamania, David design, Discipline, Dune NY, Fontana Arte, Kasthall, Living Divani, Offecct, Paola Lenti, Petite Friture, Swedese, Tacchini, Wästberg, among others.

For their work they have received the German Design Award (Gold and Silver) 2011 by the Federal Republic of Germany, Designer of the Year 2011 and Furniture of the Year 2012 by Elle Deco (Sweden), twice named both Designer of the Year and Best Seating in 2010 and 2014 by Elle Décor Italia, and the Red Dot Design Award – Best of the Best 2014, making them the first office to hold a Red Dot in five different product categories.

## Stardust

A collection of printed wall-to-wall carpets

The Stardust patterned wall-to-wall carpet was designed for the Zander K Hotel project in Bergen, Norway. Claesson Koivisto Rune has been the architect behind the Zander K Hotel, designed between 2015 and 2017.

The idea behind the Stardust design is to find the perfect balance between a design and a non-design – in essence, a design that doesn't feel designed.

The stardust dots are of course a repeated pattern, but the overall effect is equally much like an un-directional, random salt-and-pepper melange. This sought-after delicate perception ambiguity was achieved through meticulous fine-tuning of dot sizes, dot spread and exact colour hues of both dots and background.

The Stardust carpet is perfect when you want an elegant yet stain forgiving carpet. And as an architect you appreciate a pattern that can turn corners, like in a hotel corridor, without the need to change direction.

Mårten Claesson, Eero Koivisto and Ola Rune Stockholm, 2017

Stardust is a printed collection within Ogeborg Contract Design. The carpet is manufactured in sixteen different grades/yarn weights depending on the requirements of both comfort and/or durability of different types of surfaces. 4 m width, minimum quantity 100 m<sup>2</sup>.

Sirius grey

Taurus graphite

Virgo green

Aquarius turquoise

Delta blue
